## **Afterword**

## Preface

2015 saw the start of what we can now call a tradition: The GREAT Quiz of Veldhoven. And now in 2024, there is the 10th anniversary and that comes with a brand new name. From now on, our event will be Veldhoven Quiz.

And there are some more changes. Of course there is a beautiful new logo, but the most important change is that this year there are two versions. Of course we still have the old, familiar Veldhoven Quiz with over 300 questions and assignments and a high level of difficulty. But new this year is the Veldhoven Quiz Light, specially designed for participants who are just a little less fanatical or for smaller teams. The difficulty level is of course still there, but the really tough questions are missing. Also, the Light version contains a lot fewer questions. This way, we think it is fun for everyone to participate.

And there are even more changes. Starting this year, an English-language edition will also be released every time, so that the language need not be an obstacle for expats.

As the Quiz is celebrating its 10th anniversary this year, it will be a Quiz night unlike any other. Elements from previous editions will return, but we also have some big surprises!

We won't keep you in suspense any longer, but before you start, please read the Game Explanation on the next page. This will prevent disappointment afterwards.

Good luck and have fun,  
Team Veldhoven Quiz

## Teams

A team has a minimum of 4 people and a maximum of 20 people and is represented by the team captain.

## Answers

As reviewing the Quiz books is quite a task, there are some rules that each team must follow. All of the rules can be read on our website, but we hereby mention a few important rules/tips:

Each category has an answer sheet, on which all the answers and your team number must be filled in legibly. Always answer in the spirit of the question.

When handing in the book, all answer sheets must be in order in the speed binder.

## Procedure for photos and videos

- No children under 16! on the video or picture.
- Paper voucher must be clearly visible
- Voucher on phone/tablet is also allowed
- Digitally added is not allowed
- Upload your files with correct file name  
'category number' - 'question number' - 'teamnumber'  
'2 digits' - '2 digits' - '3 digits' (example: team 2 submits the picture of question 02-13. The file name will then be 02-13-002.jpg).

### **Outdoor assignments**

As usual there will be several outdoor assignments. You will have to navigate through Veldhoven for these. There will be a time table on the website. Please stick to this. Also follow the traffic rules. Safety above all.

### **Other**

If there is any news or errata, we will put it on Facebook/Instagram/Whatsapp. When a single team needs to be informed, we will call or e-mail that team. (Scan the QR code on the right to be added to the Whatsapp group).

As time is limited, we advise you to first choose questions and tasks from categories that suit you best. Don't be afraid no team will solve every question.

In the bag, you have been given a number of products. These products are needed for certain assignments and you should not use them until the book tells you to.

### **Turning in the answer sheets**

The answer sheets can be handed in at the stage on the Meiveld from 11pm to 11.30pm.

In the recent years everyone has felt the recession in their wallet. Many families have gone downhill financially. As a result, many families seek support from the Food Bank (Voedselbank) in Veldhoven.

This year from the quiz we also want to contribute to this through our great supporters. Bring tonight a maximum of 10 (perishable and not expired) products from your pantry to the Food bank (Voedselbank) Veldhoven.

You get 1 point per product, so there is a maximum of 10 points. If you want to bring more products, no problem, but the maximum amount of points for this assignment is 10 points.

The Food Bank is open especially for this purpose between 1930 and 2100 hours.

An evening of Netflix. That's wonderful every now and then.

We have written the intros of three very well-known series here. It is up to you to find out which series these are.

1.

*We hear dramatic music and see a blank sheet of paper on which lines are drawn with a graphite marker. It slowly becomes clear that it is a young man wearing a helmet. The drawing fades into the filmed image and we see soldiers in a boat and later also in a forest. Then we see warships. The moving images are always alternated with the graphite pen that is drawing. We see another soldier panting and a heroic soldier walking through the rain of bombs.*

2.

*We see a clock with 5 minutes on it. We then enter a dark, misty room with all kinds of obstacles. There are doors with, among other things, a star and a triangle on them. Then we see Rio de Janeiro and Sydney from above. People wait along the side of the street to see if anything or anyone is coming. The Statue of Liberty in New York passes by. Then we see someone waiting and a van pulls up. Someone puts on some kind of mask and sits in a control room with many screens. In the remainder of the intro an explanation of what is to come is given.*

3.

*The intro starts underwater. A flash of lightning. Someone who sinks to the bottom of the water. We also see all kinds of other objects sinking. Then suddenly fire and we see a raven. Images from underwater and above water alternate quickly. We see a wave crashing on a rock. From underwater we see three ships sailing. The name of the series appears and a wave comes straight towards us.*
